

PFDI UNDERWATER VEHICLE RIGGING & RECOVERY OPS

This ERDI certified course is designed to give the certified open water public safety diver the fundamental skills needed to safely function as part of an OSHA and NFPA compliant public safety dive team in both the diver and tender roles in underwater rigging and recovery operations.

- Course is recognized and approved by the Sunshine State Towing Association and taught in accordance with current Marine salvage protocols.
- Students will learn advanced search and recovery techniques, proper rigging and line placement, and proper weighting and safety techniques.
- Students will review current recovery equipment and techniques for locating, documenting, and recovering vehicles and equipment underwater.
